DISPENSER FEATURES

Cost Effective

Hand hygiene product costs are measured by cost-per-push, and determine savings by dividing the cost of the product by the number of hand washes. Symmetry Hand Hygiene offers one of the best cost-per-push in the industry.

User Driven Design

180° accessible lever dispenses product at any angle.

Large Sight Window

Large sight windows allow for visual product inspection to ensure product is always available.

User Designated Lock

Choose between hidden and keyed integrated lock options.

Optimal Durability

Symmetry dispensers are made of durable ABS plastic equipped with interlocking ribs and anti-vandalism posts.

ADA Compliant

Symmetry dispensers require less than 5 lbs. of pressure to activate and are operable with one hand. There is no tight grasping, pinching, or twisting of the wrist.

"Repair-In-Place" Technology

Change out covers, sight windows, latch and levers without taking down the entire dispenser.

Flexible Packaging

Symmetry product bags are flexible and hermetically sealed to ensure no contamination. Receive great end-use cost with a 99% product evacuation rate. Every bag comes with a new pump.

Adaptability

Symmetry dispensers allow for both foam and liquid hand hygiene products - one dispenser meets all needs.

Patented "No-Drip" Bellows System

The Patented "No-Drip" foam bellows ensures a clean countertop after every push.
